

arctic granite

With its subtly textured surface and modern colour options, Arctic Granite is perfect in any contemporary design situation. Each of the three colours works well on its own, or in combination. For impact try combining Midnight with Glacier, Dusk will provide a softer contrast. Arctic Granite steps and edgings complete the range.

Arctic Granite Step, Dusk

Arctic Granite 909 x 606mm, Glacier and Dusk laid in a random pattern and Exilis Walling, Nero Quartzite

types • Glacier • Dusk • Midnight

sizes (mm)	m ² per pack	no. per pack	kg per pack	no. per project pack	colours
909 x 606 x 25	13.77	25	950	-	all
606 x 606 x 25	18.36	50	1250	24	all
606 x 303 x 25	18.36	100	1240	35	all
Project Pack	18.36	93 mixed	1270	as above	all

As Arctic Granite is usually laid with minimal joints, sizes and coverage are those attained when laid with a 6mm joint. **The paving should be laid with the textured face upwards.** Arctic Granite Glacier can sometimes absorb colour from ordinary Portland Cement. We strongly recommend substituting White Cement in the mortar and adding a SBR or other bonding agent. For further laying advice see page 144
